## Summary

Experienced Software Developer with over 5 years of hands-on experience in designing, developing, and maintaining web and mobile applications.

Proven expertise in UI/UX design, frontend and backend development, and database management.

Adept at utilizing AGILE Software Lifecycle standards to deliver end-to-end solutions from conceptualization to deployment and maintenance.

I have a 'Research and Implement' mindset, constantly seeking out new technologies and best practices to improve software development processes.

I specialize in providing consultation on development scoping and pre-development planning, ensuring projects are well-defined and set up for success.

Feel free to DM me to connect or discuss potential collaborations. Let's connect and explore how we can work together to bring your projects to life!
